# Contribution statement

Farshore: Arcade Trials / CMPS 4200 HCI / October 8, 2026

## Bibek Pathak

Project owner and intended presenter. Supplied the Farshore concept, the Odyssey arcade direction and encounter requirements, and reviewed the project direction. Responsible for checking and adopting this statement before submission.

## AI assistance disclosure

Codex assisted with drafting architecture, flows, wireframes, experiment code, analytic review, slides and supporting documents. The experiment made actual calls to local Llama 3.2 3B. AI assistance is not a human team member or interview participant.

## Student review

This is a review draft. The supplied Phase 1 slides identify a solo project. No additional teammate contribution or instructor approval is documented in the supplied files. Correct any inaccurate details and obtain agreement from every actual team member before submitting.

The editable contribution-statement.md is included for corrections. This document does not assert a signature or an agreement that has not been provided.
